Hirwal Education Trust's College of Computer Science and Information Technology, Mahad has recognized its privileged position in the society. With a greater sense of awareness, we embark on COVID 19 Awareness Programme which we constantly continued for more than one and a half year and created awareness about the disease and its fatality. During the COVID 19 Pandemic, almost everybody got affected by its spiral grip and the human life has come to a standstill due to the continuous lockdowns. Our institution could not remain to be a spectator hence we started a series of COVID 19 Awareness Programmes and served the nation in this pandemic. We conducted the following programmes and activities in order to create awareness among students and common people in the region.
